Application for Examinations

Except for External Modules and the Master Thesis, it is only once that you have to apply for examinations, i.e. at the very beginning of your first semester.

Be aware that this “one-for-all”-application means an obligation to participate and that therefore you fail an exam if you miss it.

If - for some important reason – you are prevented we strongly advise you to contact the examinations office.

Protocols are examinations and underly the same rules.
