

Master Programme INS – Interdisciplinary Neuroscience

External Modules

- External Modules are subject to prior approval by the Examinations Board.

Take care to submit the application early enough to be handled before you want to start the module - in Germany at least 6 weeks; abroad at least 8 weeks

- You have to submit an informal application at the examination office comprising:
 - your matriculation number, address and the date of the application;
 - foreseen period
 - an exposé of 1 DIN A4 page describing the contents of the module including the techniques you wish to achieve signed by yourself as well as by your would-be-tutor
 - an assertion of your would-be-tutor that the module fulfills the requirements of the INS programme regulations according to the respective place holder module (A0, B0,C0, D0); he or she may do this in handwriting on a copy of the place holder module
 - an assertion that the academical work effected during the module/practice is not remunerated
 - an application for an external master thesis also needs the signature of the would-be-internal supervisor
