

GESELLSCHAFT DEUTSCHER CHEMIKER

Ortsverband Frankfurt am Main

Am Dienstag, 06.06.2017, 17 Uhr c.t.

hält

Dr. Christian Ehli

***„Award of the GDCh Ars Legendi Faculty Prize Category
Chemistry 2017“***

Friedrich-Alexander-Universität Erlangen-Nürnberg

einen Vortrag zum Thema

***“Motivation Factor Chemistry – A Teaching Concept
not Only for Students”***

Chemistry is great! Unfortunately, not all students share the same opinion. Especially during bachelor courses, many students postpone learning the contents of the curriculum and start their learning process too late. Consequently, stress and sleepless nights are inevitable.

This talk is going to discuss a number of methods for activating and motivating students in order to learn continuously during the whole semester. In addition we will see possibilities for lecturers to receive a realistic overview of the level of proficiency from the students every week. In consequence, unpleasant surprises will be almost impossible in the final exam.

Dr. Christian Ehli is an academic counsellor at the Friedrich-Alexander-University Erlangen-Nuremberg (Department of Chemistry and Pharmacy, Chair of Physical Chemistry I). He received the Ars Legendi faculty prize in the category chemistry in 2017. Further information: www.chemie.fau.de/ehli

Ort: Hörsaal H1, Chemische Institute, Campus Riedberg, Max-von-Laue-Str. 7,
60438 Frankfurt am Main

Alle Interessenten, insbesondere Studierende, sind herzlich eingeladen!

Prof. Dr. Harald Schwalbe
